# HAPPENINGS...

JACKSONVILLE PUBLIC LIBRARY, January 2020

## **Saturday Movie Matinee: "Peanut Butter Falcon" on Saturday, January 11 at 2 p.m.**

Zak, a young man with Down syndrome, runs away from a residential nursing home to follow his dream of attending the professional wrestling school of his idol, The Salt Water Redneck. A strange turn of events pairs him on the road with Tyler (Shia La Beouf), a small time outlaw on the run, who becomes Zak's unlikely coach and ally. Together they wind through deltas, elude capture, catch fish, and convince Eleanor, a kind nursing home employee charged with Zak's return, to join them on their journey.

## **Library Program: How to Control Your Blood Pressure on Sunday, January 12 at 1 p.m.**

High blood pressure can cause heart disease and stroke but it is a condition that can be treated and lowered. Join the library for a question and answer session with a representative from Molina Healthcare. There will be a discussion about blood pressure and how to control it using diet and exercise. Light refreshments will also be provided.

## **Craft Program for Adults: Make a Snowflake Using Repurposed Hangers on Saturday, January 18 at 1 p.m.**

Join employees from Golden Bridges in Quincy for a craft program to learn how to repurpose your old, white hangers into a beautiful snowflake. This class will use the everyday hanger and repurpose it into something that you can display around the holidays or give as a gift. The presenters will also discuss how to repurpose other household items you have but might not be ready to part with. This program is free but registration is required. Please call 217-243-5435 to sign up. \*Optional: Feel free to bring white hangers (with small hooks in corners) from home if you would like to reuse your own. Supplies will be provided either way.

## **Library Program: Judging Information Online on Saturday, January 25 at 2 p.m.**

If you're looking for information, the Internet has a lot of it. The problem is, you can't trust every website or article you find. You'll need to evaluate each website to decide whether it's reliable. This program will look at some of the questions you should ask yourself whenever you view a website or article online.
